

U.S. PATENT APPLICATION

INVENTION: Urushiol Induced Contact Dermatitis Treatment

INVENTORS: William Yarbrough
Corey Schroeter

CLAIMS

WE CLAIM:

- composition for treating*
1. A ~~treatment for~~ urushiol induced contact dermatitis comprising sodium ~~lauryl~~ *sarcosinate* and a nonyl phenyl ethoxylate in combination.

- composition for treating*
2. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including a second nonyl phenyl ethoxylate.

- composition for treating*
3. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including acetylated lanolin alcohol.

- composition for treating*
4. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including polyethylene granules.

- composition for treating*
5. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including water.

U.S. PATENT APPLICATION

INVENTION: Urushiol Induced Contact Dermatitis Treatment

INVENTORS: William Yarbrough

Corey Schroeter

composition for treating
a 1 6. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including
2 ethylenediaminetetraacetic acid.

composition for treating
a 1 7. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including
2 a foam stabilizing agent.

composition for treating
a 1 8. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 1 further including
2 a cutting agent.

1 9. The cutting agent of Claim 8 being selected from the group of aqueous based
2 solutions and oil based solutions.

composition for treating
a 1 10. A ~~treatment for~~ urushiol induced contact dermatitis comprising a nonyl phenyl
a 2 ethoxylate, sodium lauroryl sarconinate, and scrubbing means.

compositing for treating
a 1 11. The ~~treatment of~~ Claim 10 wherein the scrubbing mean is polyethylene beads.

composition for treating
a 1 12. The ~~treatment for~~ urushiol induced contact dermatitis of Claim 10 further including
2 a cutting agent.

U.S. PATENT APPLICATION

INVENTION: Urushiol Induced Contact Dermatitis Treatment

INVENTORS: William Yarbrough
Corey Schroeter

- a* 1 *13.* *composition for treating*
N A ~~treatment~~ for urushiol induced contact dermatitis comprising:
- 2 a first nonyl phenyl ethoxylate, a second nonyl phenyl ethoxylate, acetylated lanolin
- a* 3 alcohol, sodium lauryl *S* sarcosinate, EDTA, a foam stabilizer, water, and inert
- 4 polyethylene granules.

- composition for treating*
- a* 1 *14.* A ~~treatment~~ for urushiol induced contact dermatitis comprising a nonyl phenyl
- 2 ethoxylate, sodium lauryl *S* sarcosinate, and EDTA.

- 1 *15.* A method for treating contact dermatitis comprising the steps of:
- a* 2 *topical*
N preparing a composition comprising a nonyl phenyl ethoxylate and sodium
- a* 3 lauryl *S* sarcosinate;
- a* 4 applying the composition to an ~~infected~~ *affected* area;
- a* 5 permitting the composition to remain on the ~~infected~~ *affected* area a sufficient
- 6 amount of time to enable the composition of matter to cause an effect; and,
- 7 removing the composition from the ~~infected~~ *affected* area.

- 1 *2* *16.* The method of Claim *15* wherein preparing the composition further includes
- 2 adding second nonyl phenyl ethoxylate.

U.S. PATENT APPLICATION

INVENTION: Urushiol Induced Contact Dermatitis Treatment

INVENTORS: William Yarbrough
Corey Schroeter

1 ~~3~~³ 17. The method of Claim ~~15~~¹ wherein preparing the composition further includes
2 adding acetylated lanolin alcohol.

1 ~~18~~⁴ 18. The method of Claim ~~15~~¹ wherein preparing the composition further includes
2 adding acetylated polyethylene granules.

1 ~~19~~⁵ 19. The method of Claim ~~15~~¹ wherein preparing the composition further includes
2 adding water.

1 ~~20~~⁶ 20. The method of Claim ~~15~~¹ wherein preparing the composition further includes
2 EDTA.

1 ~~21~~⁷ 21. The method of Claim ~~15~~¹ wherein preparing the composition further includes a
2 foam stabilizer.

1 ~~22~~⁸ 22. The method of Claim ~~15~~¹ further including the step of adding a thinning agent to
2 the composition.
